POETRY.

THE PRAYER OF THE RETROBUD.

[A lady in the St. Louis Union, sent the signature of "Lionel," portraying her thoughts in the following beautiful verses, on the eve of her marriage.]

Father, I come before thee, With love and benediction, To thank thee, with a grateful tone, For all thy love to me.

Forgive, if my heart this hour, I give not all to Thee, But God's affection's mighty power Divides it now with me.

Thou knowest, Father, every thought, That wakes within my breast, And how this heart has vainly sought To keep its love suppressed.

Yet when the idol, worshipped once, Is broken by the living God, And breathes the vows I cannot shun, To me, his destined bride,

Forgive me, if the loving heart, He leaves upon my brow, Is thought of in an hour like this, And when this life is o'er,

He's chosen me to be his love, And comfort through life's day, Enable me, Oh God, to prove A loving, faithful way.

Thou knowest, Father, all the deep Affection's thoughts that sweep Resonance o'er my soul, He knows not each deep fold of love, That glues warm and free;

Can he ever, ever prove My warm identity?

Thou knowest, Father, round my way Thy choicest blessings cast; And render each successive day Still happier than the last.

And when this life is o'er, He's chosen me to be his love, And comfort through life's day, Enable me, Oh God, to prove A loving, faithful way.

Thou knowest, Father, all the deep Affection's thoughts that sweep Resonance o'er my soul, He knows not each deep fold of love, That glues warm and free;

Can he ever, ever prove My warm identity?

Thou knowest, Father, round my way Thy choicest blessings cast; And render each successive day Still happier than the last.

And when this life is o'er, He's chosen me to be his love, And comfort through life's day, Enable me, Oh God, to prove A loving, faithful way.

The Fort Wayne Sentinel.

SATURDAY, SEPTEMBER 21, 1850.

Mr. V. B. PALMER, Tribune Buildings New York; Third and Chestnut Streets, Philadelphia; and Scollay's Building, Boston, is Sole Agent for the Sentinel in those cities; and is also authorized to receive subscriptions and advertisements, &c. on our account.

Dunlap's Great Painting of Christ Rejected.

This splendid painting by the celebrated Dunlap will be exhibited at the 2d Presbyterian Church, this afternoon at two o'clock, and in the evening at half past seven. It is not often that a painting of equal magnificence can be gazed at even in our largest cities. Certainly the most enlightened portion of our citizens will gladly avail themselves of the opportunity to see it. Upon the large canvass, eighteen by fourteen feet, are displayed, with seemingly matchless beauty and skill, the full size portrait of our Saviour, the accused; the Chief Priest, the accuser; Pontius Pilate, the Roman Governor; Mary Magdalene making an appeal to Pilate to release Christ instead of Barabbas; Mary, the virgin, who looks imploringly to Heaven; the Disciple Peter; Joseph of Arimathea, &c., each partaking of the great emotion indicated by the text from whence it is painted.

Dr. RUTHERFORD has commenced a course of lectures on Physiology; or, Man as a Physical and Intellectual Being. Two lectures have already been delivered—the third will be delivered on Monday evening next.

Dr. Rutherford is admirably calculated for a popular lecturer. His language is clear, concise, and totally devoid of all that technical jargon which usually renders such lectures so dry and uninteresting. Every thing is clearly expressed and described, so that all can understand and profit by his remarks; and as he is fully master of his subject his lectures are highly interesting and instructive. We would advise our citizens to avail themselves of this opportunity of becoming acquainted with a subject of such vital importance, of which so little is generally known.

Lectures.—Dr. Womersley is engaged in delivering a course of lectures to the ladies in this city on Special Physiology, explaining the nature and cause of the various maladies to which females in the West are subject; pointing out the remedies and best means of prevention; and also, how to avoid the debility, languor, weakness, &c., which is unfortunately so prevalent amongst them. The lectures we understand have proved highly satisfactory to those who have attended, and it is the intention of Dr. W., on the completion of the present course, to give another, if sufficient encouragements offer.

The flattering encomiums bestowed upon the Dr. by the ladies in other places where he has lectured, and the satisfaction expressed by those who are now attending his lectures here, encourages us to hope that his new course of lectures will be numerously attended. The ladies cannot spend their time more profitably than in learning their own nature, and the laws governing their health, happiness, and usefulness.

By our Congressional summary it will be seen that the bill for abolishing slavery in the District of Columbia and the Fugitive Slave bill have finally passed both houses. These were the last of the measures embraced in Mr. Clay's rejected Omnibus bill, and all of which have now been passed singly.

The Bounty Land Bill for soldiers of the war of 1812 and the Indian wars, is still pending in the Senate.

Texas U. S. Senator.—Hon. T. J. Rusk

has been re-elected by the Legislature of Texas to the U. S. Senate, by a vote on joint ballot of 56 to 8. His new term is from 1851 to 1857.

Ohio, Pennsylvania and Chicago Railroad.

This great thoroughfare is progressing favorably, and we feel strong hopes that before many years elapse we shall have it completed through Fort Wayne. By a letter from Mr. Straughan, the engineer having in charge the surveys on the Ohio and Indiana portion of the work, we learn that the road is open from Philadelphia to Hollidaysburg, and the remaining portions of the route to Pittsburgh are in rapid progress. From Pittsburgh to Massillon, Ohio, the grading is going forward rapidly, the iron is purchased, and next spring the laying of the rails will be commenced at four different points. Through Wayne Co., the heavy grading is nearly completed.

The road is located to Bucyrus, and the engineers are now running the line westward to Upper Sandusky, Lima, and Section Ten. The greater part of the stock to complete the road to the latter place is already secured.

The value of this road to Fort Wayne—the accommodation it would be to travel and business, in giving us a direct communication with the eastern cities at all seasons—are so apparent that it is needless for us to enlarge on the subject. Next year the route will probably be surveyed to this place, and our citizens should therefore be prepared to take such an amount of stock as will ensure its early completion. In all the counties in Ohio through which the road runs the stock has been taken with alacrity, and we are unwilling to believe that we cannot do the same here. To ensure this, however, it will be necessary to make a vigorous effort, and every one will be required to subscribe to the full extent of his means.

MOSES DRAKE, Jr. is again on hand at the well known No. 3, looking as large as life, and twice as natural. We do not wonder at his self complacency, for he has just received from New York such a stock of new and fashionable goods as may well justify him in feeling a little elated, and cannot fail to prove attractive to numerous customers and "the rest of mankind." It is, as he justly remarks, one of the Stocks, such as you often read of but seldom see with the naked eye. Moses' taste in selecting goods is so well known that it is unnecessary for us to say more than that this time he has fairly outdone himself, and laid in a larger and better stock than usual. He is a liberal and accommodating fellow to deal with, and we predict his goods will "go off like hot cakes."

MOSE DRAKE, JR.—Farmers, look out!

Thompson's Bank Note Reporter quotes the Mineral Bank, Cumberland, Md.; Commercial Bank, N. Jersey; Agricultural Bank, Texas; and Farmer's and Mechanic's Bank, N. Branswick, New Jersey, as doubting "The Reporter says—"These banks are not in our opinion safe, and we quote them DOUBTFUL."

If any of these rag mills are really about to fulfill their destiny we may expect as a matter of course that an attempt will be made to circulate their notes in the west, so that when the smash does come, our farmers will be the sufferers. It is an almost invariable rule that the farmers of the west are swindled out of their produce or stock by sharpers connected with these rotten institutions, who flood the country with the worthless rags just on the eve of the bank's bursting up.

It is a very poor sign when we see many notes of any eastern bank in circulation here. At such a time a smash may be looked for. The only safe way is for farmers to refuse the notes of all distant or unknown banking institutions. Their produce will always command cash, and they are blameable to part with it for anything except what they know to be good.

MAINE ELECTION.—The members of Congress elected at the recent election are: 1st District, McDonald, democrat. 2d, Appleton, democrat. 3d, Goodman, whig. 4th, Andrews, democrat. 5th, Washburn, whig. 6th, Fuller, democrat.

Secretary of the Interior.—Mr. Fillmore has at length succeeded in finding an individual willing to accept the station rendered so odious by the misconduct of Sutherland. Ewing, the Hon. Alexander H. Stewart, formerly M. C. from Western Va., has accepted the appointment of Secretary of the Interior.

C. A. GARY has literally filled up his "old store" with a full assortment of new goods. He does not deal so much in fancy articles as some of his neighbors; but for good, substantial, serviceable articles, he can't be beat. His prices, too, are always reasonable, and the simple announcement that his new goods have arrived will be sufficient to crowd his establishment with anxious customers.

Ma. Jacobs has just received a full and well assorted stock of Boots and Shoes, at his store in Calhoun street. The ladies will find several novelties in the line of winter boots and shoes at this store—some of which are admirably calculated to preserve health by keeping the feet warm and dry. His goods are all warranted to be of the best manufacture, and repairs are repaired gratis.

For the gentlemen he has some beautiful Calf Boots, at greatly reduced prices, besides every variety of heavier articles, such as Kip, Stogies, &c.

NEW YORK NOMINATION.—The united convention of the Hunkers and Barnburners, held at Syracuse, nominated Horatio Seymour of Utica, for Governor, and Sanford E. Church, of Orleans, for Lieut. Governor, by decided majorities. Both nominations were unanimously confirmed by the convention. For Canal Commissioner, John C. Mather, of Rensselaer; for Clerk of the Court of Appeals, Mr. Benton, the present Clerk; for State Prison Inspector, Wm. P. Angell, of Cattaraugus; two Hunkers and three Barnburners.

Payment of Interest on Canal Bonds.—Hon. J. W. Wright, Clerk of the Canal Trustees, will be in this place next Friday and Saturday, to receive payment of interest due on Canal Bonds. Those who neglect paying at that time will be put to the trouble of sending to Loganport to make their payments.

Washington Correspondence.

WASHINGTON CITY, Sept. 7, 1850.

EDITOR OF THE SENTINEL:—

Yesterday the House combined together the bills of the Senate, fixing the boundaries of Texas, and framing a territorial government for New Mexico and passed them. To-day, California was admitted, just as she came from the Senate; and Utah provided with a government by the passage of the Senate bill. The Senate will approve on Monday or Tuesday next, of the amendment which the House made to their bill, as first above stated, and thus settle the whole matter, bringing Congress to an adjournment about the 23d or 30th inst.

By reference to the proceedings of the House you will see that I have voted for the admission of California, and against the other measures—the reasons for which I may have occasion to give hereafter. Congress will now adjourn after a session of about 10 months, the longest ever known or held under the Constitution, and doing as little private business as it was possible for us to do; on account of which the greatest injustice will be done to many of our citizens.

Very respectfully,

A. J. HARLAN.

P. S. The Bounty Land bill I fear will fail for want of time—yet I hope not.

JOHNSTOWN, U. California, 60 miles above the Sacramento.

Dear and Beloved Father:—

Thinkings as I have wrote to you repeatedly, and up to the present time of writing, having received none from yourself, there must have been some failure in the mail, or other cause, I know not what.

In my last letter, I stated that I was engaged in carrying on a Grocery Store, up in this place—far away in the mountains, with nothing but the high ridges of beautiful mountains, as far as the eye can reach, covered with a splendid growth of the tallest and largest pines I ever before witnessed, with here and there an intervening valley, filled with sweet grass and handsome flowers to satisfy the appetite of the California cattle, which are very plenty, as also are all kinds of native game, as deer, antelope, grizzly bears, elk, rabbits, squirrels, and birds without number; but yet there is something wanting in all these splendid prospects to make it appear like my own honored home, which I shall never forget, and which I soon hope to see—never more to leave for California.

But to return to my own individual affairs. I have relinquished my former mentioned business, and am about to try the miner's life again, as I think there is more to be made in that branch of business than any other at the present, and am in hopes to be able to leave for

New York, 16th Sept.

The steamship Canada arrived at Halifax at 1-2 o'clock this morning. She left Liverpool on Saturday the 7th inst. The steamship Pacific, from New York arrived at Liverpool on Wednesday the 8th, at 11 o'clock.

The harvests have all been secured in good order. Indian Corn has declined 50 per quarter. The steamer Cambria arrived at Liverpool the 2d. This is the quickest passage on record, and has created excitement in the Highlands of Scotland. The Lord Lieutenant of Ireland is making a tour to visit the newly-arrived, that they will actually perish from hunger, unless active and substantial measures are promptly taken by the emigrants before starting from their own comfortable homes; but God forbid that such should be the case, and I should advise all my friends not to come unless with a requisite fund for emergencies. Your affectionate son,

JAMES SMITH.

P. S. Since writing the above there has been large quantities of new emigrants, from across the plains, arrived at the mines. They report the most horrid accounts of the emigration on the road, which are that many are dying from starvation on the road, and that others have been compelled to kill their horses and mules to keep the last spark of life in themselves and perishing families. If such is the case now, what will be the state of the proceeding emigration. No one can imagine the worst fate awaits them, as it is predicted by the newly-arrived, that they will actually perish from hunger, unless active and substantial measures are promptly taken by the emigrants before starting from their own comfortable homes; but God forbid that such should be the case, and I should advise all my friends not to come unless with a requisite fund for emergencies. Your affectionate son,

JAMES SMITH.

THE high reputation of this extraordinary medicine, in the cure of many diseases, and

its long and successful use, has attracted the attention of the whole family community. It is

now so extensively used in most of the Livery and Sale stables of our western cities

that it is almost impossible to find a stable where it is not used. It is a most valuable

remedy for all the diseases of the horse, and is especially adapted to the treatment of

the following diseases: Colic, Struck, Stomachic, Stomachic, Stomachic, Stomachic, Stomachic,
